WORK EXPERIENCE

Nike s.r.o. | Bratislava
Senior Perl Developer

Feb 2018 –

- Intensively involved in many parts of the company – betting system, bet resolution, bonuses, configuration...
- Supporting ancient code base with over two decades of history (in some parts of the system)
- Efficiently handling communication on tasks with different teams
- Promoted to the role of architect for the newest project
- Single-handedly implementing Restful APIs for every project I did (Bonus system, Wallet) and refactored submission system for bet-slips
- Over-achieving expectations from specification (10k requests/second – measured 11.2k with full ACID and synchronous multi-master replication)
- Written tests everywhere I looked

THIA INC, Proteng Distribution INC | Bratislava / Jupiter, FL
The Entire IT

June 2017 – Dec 2017

- Architecture and development of back-end systems
- Development of mobile application using NativeScript
- Creation of custom single-page jQuery front-end
- Installation and configuration of every server and technology used – LNPP, mail, fileshare, accounting...
- Creation and implementation of product tracking system – from development to teaching employees
- Utilization of QR codes for tracking entities
- Everything done using open-source technologies for no additional cost

Ferratum Group, Credit Limit System | Bratislava
Senior PHP Developer

Mar 2017 – June 2017

- Development and maintenance of important internal processes
- Helped with on-boarding newer employees into the team
- Worked on the most profitable project in company
- Driven the innovation and devops approach with Docker

Core Tool Developer (PHP+Perl)

- End-to-end development of critical network webtools used for billing and reporting on global scale
- Comprehensive coverage of: server configuration, DB schema, software programming, packaging
- Developed web interfaces, remote data polling, APIs and report generation
- Finished independently 4 different webtools within 1 year; 150k devices coverage
- Leader and developer of one of the most successful tools in the team
- Learned Perl in 3 weeks, finished functional test version of first project within the following 3 weeks

Boderdoo.com LLC | Remote Development Center, Kosice

Mar 2013 – Sept 2013

Core Web Developer (PHP), ContactUs.com

- Within a small team, designed and delivered major features: brand new JS back-end for pop-up forms, A/B testing & reporting (front and back), appointment & scheduling (front and back)
- Involved in project discussions and quickly assumed consultant position
- Contributions to rework of 10 years old framework

Treecom s.r.o | Kosice

May 2013 – Sept 2013

Developer (PHP)

- Refined features and completed finishing touches on video streaming website
- Worked with CodeIgniter, jQuery, Flash
- Quick paced with high customer satisfaction

Mattis s.r.o | Presov

Jun 2012 – Feb 2013

Core Web Developer (PHP)

- Assigned to rewrite website from scratch
- Worked on my own secure MVC PHP framework, jQuery libraries and accessible interface (for the blind)
- Using third party API for e-shop (re-selling)
- CMS and e-shop back and front-end with internationalization and templates
